Karnataka, Bengaluru, India

ABOUT ME

Software development and data analytics enthusiast with a strong foundation in C++, Python, SQL, and Object-Oriented Programming (OOP). Adept at data structures, algorithmic problem solving, database management, and leveraging analytics tools like Power BI and Excel to derive insights. Eager to apply technical skills in collaborative team environments to build efficient software solutions and data-driven systems.

EDUCATION

SirM.VisvesvarayaInstitute of Technology (Sir MVIT)
Expected | April 2027

B.E. in Computer Science and Engineering - *IoT, Cyber Security & Blockchain Technology*
Relevant Courses: Artificial Intelligence, Foundation of Data Science, Data Structures & Algorithms, Operating Systems, Computer Networks, Database Systems, Computer Architecture

PROJECTS

SudokuBacktracking Solver | C++

Sudoku Backtracking Solver

- Engineered a standalone algorithmic application to automatically solve complex 9x9 Sudoku puzzles using constraint satisfaction and pure logic.
- Implemented a recursive backtracking algorithm to efficiently explore, validate, and evaluate thousands of potential numerical combinations.
- Utilized 2D arrays for structured data representation, memory management, and fast grid state processing.

Interactive Console Quiz Game | C++

Console Quiz Game

- Developed a modular, menu-driven quiz application in C++ utilizing structs and vectors to manage complex question data banks.
- Implemented structured input validation, dynamic user choice handling, and real-time score tracking with performance metrics.
- Designed clean, scalable control flows to manage game loops and interactive command-line states efficiently.

SKILLS

- **Languages**: C, C++, Python
- **Data Analytics & Databases:** Power BI, Microsoft Excel, SQL (MySQL)
- **Web & Tools:** HTML, CSS, JavaScript, Git, GitHub, Visual Studio Code
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Data Analytics, Software Development Life Cycle (SDLC), Multithreading, Database Management, Computer Networks
- **Core Competencies & Strength:** Problem Solving & Debugging, Teamwork & Adaptability

CERTIFICATES

- BasicsofDataStructures and Algorithms
- Web Development for Beginners
- Introduction to SQL
